

# PROSIS PRO L 2:1

## UPHOLSTERY CLEANER EXTERNAL STEAM NOZZLE

### PROSIS TIP

Recommended for all manual car washes, as they will be able to offer cleaning of areas never cleaned before with this model as paying service. It allows for the cleaning of inaccessible parts of door panels, wheel rims, bicycles, interior plastic surfaces, engine compartments and other external surfaces without water and without leaks.

All this with the added benefit of an upholstery cleaner nozzle.

A machine that complements and allows the comprehensive cleaning of all vehicle parts, just like car valeting.
